

Medical Support Consultation Form

(健康支援相談書)

This form is only for students who are taking medication and need support to find medical doctors for continuous treatment in Japan.

The kind of medicine permitted, and/or the maximum dose of medications varies widely between different countries. If you have been taking medications, you might have to see a doctor for the prescription during your stay in Japan. The information described below will help us to give you the necessary advice before coming to Japan, and to arrange the clinic(s) or the hospital(s) during your stay in Japan. We also recommend that you attach a Medical Referral Document from the doctor you are seeing (with a note about your medical history and the prescription).
